

Bio Floor Clean

Superior Microbial Cleaning of Floors and Walls

A no rinse biological floor cleaner especially designed for the cleaning of kitchen and restaurant floors and walls.

KEY PROPERTIES

Bio Floor Clean contains biological enzymes that are effective in breaking down the greasy, long-chain fatty acids that persist in porous surfaces making it highly effective in cleaning tiled surfaces and grout.

Reduction of these fatty acids reduces both the odour and the long term slip potential of cleaned surfaces.

Bio Floor Clean offers:

- Excellent surface cleaning capability
- Biological breakdown of the grease and grime that penetrates porous surfaces
- Cleans Floors and Grout
- Controls Odours
- Eliminates Embedded Grease
- No Hazardous Labelling

TECHNICAL DATA

pH	7.5 - 8.0
SG at 20°C	1.00
Bacteria	5.4×10^7 cfu/ml
Odour	None
Dilution	1 – 3% Solution

PACKAGING

1L, 5L and 20L containers.

APPLICATION

- Dilute Bio Floor Clean at 1%-3% solution with clean water and apply to surface. No rinsing is necessary, unless the area is likely to come into contact with food.

SAFE HANDLING

Store in original containers and avoid extremes of temperature.
